

# Utility Safety Technologies

Providing Tools and Safety for the Utility Industry

## Who is UST?

---

Our intent at Utility Safety Technologies is to be a part of the progression of the Utility Transmission & Distribution Industry by assisting you to work smarter, more efficiently and more safely. Our management team has over 50 years of combined experience from direct industry experience as safety professionals to consulting, training, engineering, design, manufacturing and distribution. We also regularly consult with experts within the industry to help us develop products, identify trends, suggest product uses and best practices and relate how we can best provide solutions to their most pressing needs.

# Believe Foundation

Completing the Circle.

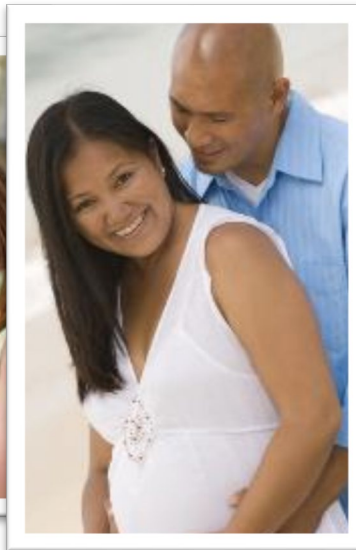

Helping Family and Friends of Utility Workers.

- Lineworkers injured or killed on the job leave families traumatized by their injuries or devastated by the loss of their loved one. The BELIEVE Foundation is our effort to complete the circle of human kindness that gives life to our corporate efforts.

# Believe Foundation

- We have committed to donate \$1.00 from the sale of every Lineman's MUTT to the BELIEVE Foundation to help support those families.

# UST is...

- A solution provider of tools and safety products to the utility industry.
- 50 combined years of experience in the safety industry.
- 100% American made products.

# The Lineman's M.U.T.T. (Multi-Use Technical Tool)

A Lineman's Best Friend
